Professional Experience

Willing App Internship

2023 - Present

As part of my job, I am responsible for developing an application using React and NodeJS.

- Construction and arrangement of components
- Work amongst the server side (Back end).

Technology stack - MongoDB, Amazon Web Services (AWS), React.js · Node.js

Projects

Marketplace app - GitHub

- Welcome to MarketPlace, a B2C (Business-to-Consumer) application built using the MERN (MongoDB, Express, React, Node.js)
- This project was completed as a group effort to build a functioning B2C application with authentication and authorization features. The goal was to gain experience in working as a team to develop a complex application and learn how to implement these features in a web application.

Technical Skills

Front End: HTML, CSS, JavaScript, React.js, Tailwind.

Back End: Node.JS, Express.

Databases: SQL, NoSQL, MongoDB.

Languages

- Hebrew - Native
- English - Fluent
