Summary

A former basketball coach who's seeking a new professional career as a full-stack developer, I'm highly motivated and passionate about succeeding in the area

Experience

Willing App - Full Stack Developer, internship, January - march 2023

- A social app that connects people who need help with those who can help.
- Responsible for developing an application using React.js and Node.js.

MarketPlace - B2C and B2B store product sales(On work).

- The application was developed by a team, allowing for sharing of knowledge and skills and creating of a cohesive product.
- We handled any conflicts that may appear before committing and Pushing to GitHub, and each developer worked in a different branch.
- I learned about Tailwind when my team used it to build the UI for our web application. This experience helped me better understand the framework and how to use it to create responsive and visually appealing UIs.

Technical Skills

Front End: HTML, CSS, Tailwind, JavaScript, TypeScript, React.js, Angular.

Back End: Node.js, Express.js, Nest.js.
